LATEST ANNUAL TRENDS REPORT FROM THE EMCDDA

**Coming soon: *European Drug Report 2022* to be released on 14 June**

(20.05.2022, LISBON) What do the latest data tell us about trends in drug use and the market? What hazardous new drugs are emerging? What substances are posing the greatest health threats? Find out more when the **EU drugs agency (EMCDDA)** launches its ***European Drug Report 2022: Trends and Developments*** in a live online press conference on **14 June**.

Based on data from **29 countries (EU 27, Turkey and Norway)**, the report delivers the latest overview of the drug situation in Europe up to 2022, exploring long-term trends and emerging threats. The publication includes chapters on individual drugs, as well as on drug supply, production and precursors. National data sets are also provided across these themes and on key interventions.

Available in 25 languages, the publication is an essential resource for developing evidence-based policies and services. Accompanying the report will be the **2022 Statistical Bulletin**, containing the European dataset underpinning the analysis. Also published on the day will be an update from the **EU Early Warning System** on new psychoactive substances as it celebrates its 25th anniversary.

Join us for the live online event to hear about the key issues and latest analysis.
